

REMARKS

Applicants thank the Examiner for the telephone conference on July 2, 2007 and for his kindness in indicating that the corrective amendments to the independent claims will be entered.

Independent claims 1, 11, and 31 in the Reply dated April 3, 2007, were amended to incorporate the following feature of claim 3: “wherein, with a layer thickness of approximately 100 nm, the resistivity of the electrically conductive coating is at least approximately $10^{-7} \Omega \text{ cm}$.” However, the amendments actually made did not correctly reflect the same.

The Commissioner is hereby authorized to charge any fees associated with this response or credit any overpayment to Deposit Account No. 13-3402.

Respectfully submitted,

/Csaba Henter/
